

Chameleon Cream

Description:

Chameleon Cream is based on a transformation formulation, which appears first white but develops color upon application. It is a protective day cream with moderate SPF and UVA protection without the heaviness of a make-up foundation.

Instructions:

Apply on the clean skin before enjoying a sunny day. Can be used like a BB cream with natural tint and sun protection.

Actions:

Light diffusion effect upon skin surface
Skin appears smoother and feels silkier

Active Ingredients:

Methyl Methacrylate
Crosspolymer

Skin softening natural oil
Rich in natural antioxidant and Vitamin E

Meadowfoam Seed Oil

UV-filter

Titanium Dioxide

Results:

Skin is well protected and skin color becomes naturally even.
