

Guardian Angel Protecting Cream

Description:

Protecting sun cream with very high SPF and UVA protection. This sun cream is ideal even for the most delicate skin types as it has an excellent sun protection and provides long lasting application. Water free – formulation means complete hydrophobicity, hence strong water resistance. Guardian Angel Protecting Cream is rich but applies evenly and smoothly on the skin. It is an ideal sun cream for skin areas, which tend to sunburn easily.

Instructions:

Apply on the facial skin areas while enjoying the sun. Can be used as a local sun block for sensitive skin areas such as the nose, ears and shoulders.

Actions:

Photostable, natural oil that softens the skin
Prevents moisture loss and dryness

UV –filter

Preservative free – formula

Water free – formula

Active Ingredients:

Vegetable Squalane

Titanium Dioxide

Results:

Well protected skin with a bright, matte application. Longlasting film upon application with excellent water-resistance.
